EDUCATION

Excel Engineering College, Nammakkal   **2020 – 2024**

B.Tech – Artificial Intelligence and Data Science Engineering - **CGPA – 8.45**   *Erode, Tamil Nadu*

Experience

Besant Technology (Software Developer Training)   **Bengaluru, India**

Full stack java developer   *may 2024 – july 2024*

- Proficient in **HTML, CSS, JavaScript, React.js**, for developing, responsive, and interactive web applications.
- Experienced in working with **SQL** (relational databases) and **MongoDB** for efficient data management.
- Skilled in Core Java, JDBC, Servlets, and Node.js for developing scalable and secure server-side applications
- Skilled in full-stack development through Q Spiders training, with both frontend and backend technologies.

Durga Tech (Intern)   **Erode, Tamil Nadu**

Front End Web Development Intern   *Oct 2023 – Dec 2023*

- Led projects using HTML, SCSS, JavaScript, Bootstrap, and Tailwind for dynamic, responsive interfaces.
- Utilized React.js to design efficient client-side apps, optimizing performance and enhancing user experiences.
- Built reusable React.js components to simplify development and maintain consistency across the app.
- Participated in team projects, learning the importance of collaboration in agile development environments.

PROJECTS

E Commerce Application ⬏ / React_js   **2024**

- **Built a full-featured e-commerce application** using React.js, including functionalities such as product listings, user Authentication, a shopping cart, Register and a login page.
- **Utilized React.js components** and state management to create a dynamic and responsive user interface.
- **Implemented routing** with React Router to ensure smooth navigation between different pages.

House Price Prediction ⬏ / Django, Bootstrap   **2023**

- **Project Overview**: Lead a team in the development of a personal House Price Prediction using python, machine learning algorithm such as Random Forest
- **Utilized Django** to create a dynamic and responsive interface for an optimal user experience.
- **Responsive Design**: Ensure the application is fully functional across various devices and screen sizes.

Virtual Assistance ⬏ |Python, NLP   **2024**

- **Project Overview** Lead a team in the development of a Virtual Assistant using python, overseeing voice command recognition, and implementing basic information and functionalities.

TECHNICAL SKILLS

Languages:Java,Python,JavaScript
Technologies: HTML5, CSS3, JDBC
Databases: SQL, MongoDB
Frameworks: React JS, Node JS, Bootstrap, Django
Developer Tools: VS Code, IntelliJ, Canva, Eclipse, MySQL Workbench, Git, GitHub

ACHIEVEMENTS

- I WON 1st PLACE at Knowledge Institute of Technology Salem, **PAPER PERSENTATION**

CERTIFICATIONS

- **SQL** (Basic) certification from Hacker rank. [View_Certificate]
- **Python** (Basic) certification from GUVI . [View_Certificate]
- **Excel** (Basic) certification from Internsala . [View_Certificate]
- **Java** (Basic) certification from Hacker rank. [View_Certificate]
- **AI 2.0** (Basic) certification from GUVI . [View_Certificate]
- **SQL** (Intermediate) certification from Hacker rank. [View_Certificate]
